Beautiful Aleppo

They created a desert and called it...
whatever...till you get to

Paper Playmates.

“Soul-shattering" then, Russian
and Syrian bombings having
destroyed already-devastated

hospitals during
"the most savage

week" as 100,000
children play

in barrel bomb craters & make
paper models of dead friends.

What’s it like making
dead friends from paper?

Then...larger
as you grow, or
not? Truly Ponder,

Alleged Person,
since YOU live in

this fuckin hor-
rible world too!
